GSD-441 PG2

PowerG Wireless Natural Gas (Methane) Detector

- Detects Methane CH₄ gas used for cooking and heating
- Transmits alerts to the PowerMaster control panel and provides visual and auidial alerts when gas is detected
- Self-test button for sensor, receiver, LED and buzzer checks
- Mute button to shut off triggered auidial alarm
- Loud internal buzzer (85db)
- PowerG two-way Frequency Hopping Spread Spectrum FHSS-TDMA technology - Provides robustness and reliability closer than ever to wired
- Large transmission range enabling repeater-free installations
- Visible and transmitted low battery indication
- Meets EN 50194 requirements (the European standard for domestic gas alarms)

GSD-441 PG2 provides an early warning for leaks of natural gas (methane CH₄) - the gas commonly used for cooking, home heating and water heating. GSD-441 PG2 transmits alerts to the PowerMaster[®] control panel which sounds the alarm and forwards the alert message to a central station or private phone number. This enables a rapid and effective response.

Specifications:

Power source:	220-240V~ 50Hz
Back-up battery type:	3V CR123A Lithium battery
Weight (including battery):	370g (13oz)
Operating temperature:	0°C to 45°C (32°F to 113°F)
Operating environment:	Indoor
Dimensions:	155 x 80 x 58mm (6.1 x 3.1 x 2.3in)
